Subject: The State's Intended Use Plan for the FY 2016 319 pass through grants

Mary,

The Intended Use Plan that was included in OR's 2016 319 application package, did not include changes based on my review comments of the draft IUP. I had suggested to the state that they not delay submitting their 319 application just to make those changes. I plan to work with DEQ in the next week or so to address comments on the draft. Generally, the proposed projects and associated work plans in the Intended Use Plan support NPS outreach and education, and implementation actions that target NPS issues.

Let me know if you have any questions.
